

Global Inflight Products introduces Asian-style meal boxes

Asian-style meal boxes from GIP

[Global Inflight Products](#) has expanded its offering of custom-made travel products with Asian-style meal boxes for inflight dining. These are authentic Japanese dining sets with unique patterns and different textures on the boxes.

“Exciting news! Introducing our Asian-style meal boxes, designed to perfectly complement Asian cuisine,” said Wafa Zaghdadi, VP of Sales and Marketing at Global Inflight Products via LinkedIn.

The meal boxes feature tailored colour combinations and patterns to suit an airline’s personal style and are available in oval, square and rectangular shapes. These Asian-style meal boxes are designed to add elegance and enhance the inflight dining experience for passengers.
